# Implement a program on

Packages

// SAVE IN A.JAVA IN A NEW FOLDER PACK2

```java
package mypack;
public class A
{
    public static void msg()
    {
        System.out.println("Welcome to Package!!");
    }
}
```

// SAVE IN B.JAVA

```java
package mypack;
import mypack.*;
class B
{
 public static void main(String args[])
 {
    A obj=new A();
    obj.msg();
 }
}
```

OUTPUT

```
C:\Users\Chaitanya24\Desktop\OOPJ Exp>javac ./mypack/A.java

C:\Users\Chaitanya24\Desktop\OOPJ Exp>javac B.java

C:\Users\Chaitanya24\Desktop\OOPJ Exp>java B.java
Welcome to Package!!
```
